## Sale of ZF ADAS Business to Harman

Dear Mr. DK Kim

As you may be aware, ZF Friedrichshafen AG (ZF) has recently decided to transfer its business unit which develops, manufactures and sells driver assistance and automated driving solutions mainly for passenger car applications (*ADAS Business*) to ZF Capri HoldCo GmbH (currently a subsidiary of ZF) and its subsidiaries as set forth in Annex A (*Capri Entities*). ZF has agreed to sell its shares in the Capri Entities to Harman Holding GmbH & Co. KG (*Harman*) (*Transaction*). After completion of the Transaction, the ADAS Business will be operated by the Capri Entities as part of the Harman group.

For an interim period and to ensure continuity of production and supply, ZF and its affiliates will continue to produce certain products pertaining to the ADAS Business under a contract manufacturing agreement for the Capri Entities. Likewise, the Capri Entities will continue to produce certain products pertaining to the so-called electronics business of ZF that focuses on vehicle motion control, including braking, steering and powertrain systems (*Electronics Business*) at the Capri sites in Marshall, USA, and Czeszochowa, Poland, for ZF and its affiliates.

In this context, all existing agreements exclusively pertaining to (i) any production activities related to the ADAS Business or the Electronics Business each as conducted at the Capri sites in Marshall (USA) or Czeszochowa (Electronics Plant, Czeszochowa, Poland), and/or (ii) any engineering activities of the ADAS Business each as conducted at any Capri sites listed in Annex A ((i) and (ii) collectively *Sold Business*), which are in place between your company and ZF or any of its affiliates, in particular the agreements listed in Annex B as well as all open purchase orders, consignment agreements, and electronic data interchange (*EDI*) agreements, (*Transferred Agreements*) shall be transferred to the relevant Capri Entities.

In addition, all existing agreements simultaneously pertaining to both (i) the Sold Business, and (ii) other business units of ZF, including all framework agreements, pricing, quality and logistics agreements, shall be split and treated as follows: To the extent pertaining to the Sold Business, they shall be newly concluded with the relevant Capri Entities, on terms and conditions identical to those of the existing agreements. The specific contract partners, agreements, and part numbers concerned are set forth in Annex C. To the extent such agreements pertain to other business units of ZF, the existing agreements remain valid and in place between your company and ZF and its affiliates.

We currently expect that the (new conclusion and) transfer of the agreements will become effective in the second or third quarter of 2026. We will inform you in due course about the actual date on which the new conclusion (where applicable) and transfer will become effective (*Transfer Date*). The sale of the shares in the Capri Entities to Harman is expected to be completed in the third quarter of 2026 (*Closing Date*).

With effect from the Transfer Date, all existing and future rights and claims of ZF under the Transferred Agreements will be assumed by the Capri Entities. From the Transfer Date onwards, the Capri Entities will be the sole contracting party vis-à-vis your company under the Transferred Agreements,

including with respect to all existing or future ordering, acceptance, and payment obligations arising thereunder.

The Capri Entities, as future part of the Harman group, are fully committed to maintaining and further strengthening the business relationship with you.

To ensure a seamless continuation of the cooperation, we kindly ask you to document your approval to the transactions and arrangements set out above by countersigning this letter.

Please return the countersigned letter to:  
ZF Friedrichshafen GmbH
